

COMPANY PROFILE

...YOUR ONE STOP SHOP FOR
ALL YOUR ENERGY NEEDS...

www.advadlimited.com

ADVAD Limited

ADVAD Limited is a fast-rising homegrown company serving the oil, gas, energy, private and industrial sectors within the Nigerian economy.

We kicked off and never looked back since 2009, constantly raising the bar in all that we do.

Our team of engineers is second to none with over 150 years of collective experience across a wide range of multidisciplinary and highly-complex engineering projects.

About us

We are Innovative and Resourceful

An Avant-Garde in the power and electrical infrastructure industry.

We are a fast-rising company serving the Oil, Gas, Energy, Private, and Industrial sectors of the Nigerian economy.

We are Future-oriented

A vision to become the high in-demand company providing power and energy services.

We are Aspiring

To continuously create value for our customers by delivering our services with unparalleled enthusiasm, finesse, speed, superiority, and excellence.

Professional Membership

ADVAD is a member of the following bodies:

COREN
Council for the Regulation of Engineering
in Nigeria

Membership Certificate

**NIGERIAN ELECTRICITY
MANAGEMENT
SERVICES AGENCY**

Motto: Safety, Quality and Efficient Service Delivery

NSE FIRM MEMBER

ISO 15288-2015
(Quality Engineering System)

ISO9001-2015
(Quality Management System)

Our Management Team

VICTOR ADEDIJI
CEO/MANAGING DIRECTOR

Engr. Victor Adediji , a goal getter is a graduate of Civil Engineering and presently the MD/CEO and founder of ADVAD. He is a member of the Nigeria Society of Engineers, (MNSE), Council for Regulation of Engineering in Nigeria (COREN) and Nigeria Institute of Civil Engineers (MNICE).

Before founding ADVAD in 2009, Victor had put in fourteen years in Negris Limited where he started his carrier as a supervisor and rose to Senior Manager in the company. While in Negris, he was involved in supervising several multimillion-dollar projects in the power, oil and gas sector.

These projects include: 2x 7.5MW (15MW) first phase and 10MW expansion of Shell Central Power Plant (SPDC - SCPP) Project that powers the Industrial and Residential Areas of Shell Petroleum Development Company (SPDC) in Port Harcourt, Rivers State.

Also, a 3 x 10 MW (30MW) Power Plant for Shell Petroleum Development Company, Bonny, Rivers State, Phase I; 3x 10MW (30MW) Rivers State Trans Amadi Power Plant, Port Harcourt, 2 x 3MW (6MW) Lekki Electrical Power System Upgrade (LEPSU II) for Chevron Nigeria Limited, Lekki, Lagos and the first phase 10MW Island Power Plant Project, Marina Lagos.

ADVAD under his management has been involved in several outstanding power projects including refurbishment of 7.6MW

MWM diesel generating sets in Akute Water Works, Lagos State, 8.5MW PIPP LVI Genco's Power Plant in Lekki, 3.8MW Ilupeju Power Plant, 5MW Lisabi Power Plant, 4MW Sapiro Utilities Power Plant, Various power project feasibility Studies/Technical Advisory.

Victor has worked as Consultant for International bodies like United Kingdom Agency for International Development (UKAID), Department for Infrastructure Development (DFID) through Nigeria Infrastructure Advisory Facility (NIAF), Policy Development Facility (PDF II).

He has also worked as Consultant for United States Agency for International Development (USAID) through Power Africa Nigeria and several other power projects

GBENGA ADEGBITE
CHIEF TECHNICAL OFFICER

Gbenga Adegbite is a genius that is always ready to put in the work in his field. He earned a Mechanical Engineering degree from the University of Lagos and received training in engineering and management in several countries, including the United Kingdom, France, and the USA.

He has recorded landmark achievements in the power sector with a solid 20 years of experience.

In those twenty years, he has worked on various multidisciplinary power projects with a total installed capacity surpassing 1000 MW. Progressing from field engineer to Executive Director (Projects), he eventually joined ADVAD's Board of Directors.

During his career, he has successfully overseen power projects that involved EPC and commissioning, such as the 150MW Omoku Gas Turbine and 100MW Trans Amadi Gas Turbine power stations in Rivers State, as well as the Egbema 338MW and Gbarain 225MW simple cycle power plants.

Gbenga Adegbite is a member of COREN, NSE, and the American Society of Mechanical Engineers.

LATEEF SALAMI
DIRECTOR OF OPERATIONS

Engr. Lateef Salami is a highly skilled power system engineer who has been working in the field for 20 years. He honed his skills gaining vast knowledge and experience in the Nigerian power sector, having worked on various projects related to electricity generation, transmission, and distribution.

He is particularly skilled in Protection, Control & Metering (PC & M) engineering. In a previous role, he led a team of engineers responsible for the specialist commissioning activities of HV and MV power equipment, including Gas Turbine Generators (GTG), Generator Step- up Transformers (GSUT), Generator Circuit Breakers (GCB), Isolated Phase Bus Ducts (IPBD), and different capacity Auxiliary Transformers at electrical installations throughout Nigeria. Engr. Salami has participated in

He is a guru in measuring the integrity and commissioning of power plant and substation earthing systems. In addition to his work in the power sector, Engr. Salami has been involved in providing engineering solutions for onshore and offshore oil and gas facilities.

He has also been actively advocating for the rights of electricity consumers, particularly after the privatization of the power sector in Nigeria. Currently, he spearheads a team in providing energy accounting and revenue optimization services to a Power Distribution Company.

numerous trainings, conferences, seminars, and workshops both in Nigeria and abroad.

He has received training from organizations such as the renowned Centrax Gas Turbines, Omicron, ABB, and VATECH-Reyrolle.

Throughout his career, he has been involved in various stages of EPC projects, from designing and procuring power equipment to installation, testing, commissioning, operation, and maintenance.

KUNLE SOBANWA
DIRECTOR, BUSINESS DEVELOPMENT
& CLIENT SUPPORT SERVICES

Adekunle Sobanwa is a seasoned engineer who has more than thirty years of varied professional experience in business development, project management and manufacturing in the industrial and energy sectors of the Nigerian economy.

Throughout his career, Sobanwa has held senior management and strategic leadership roles in prominent companies like Cadbury Nigeria Plc, UAC Plc, and Energy Company Plc, where he worked as a business developer and project manager.

He was responsible for overseeing the engineering, procurement, and installation of autonomous power plants for both the Lagos State Government and multinational corporations such as Unilever, Nestle, and Coca-Cola.

Sobanwa actively participated in the deregulation of the electricity sector, stringing along with him vast cross-functional expertise and in-depth knowledge of Nigeria's electricity industry.

He holds a Bachelor's degree in Mechanical Engineering from the University of Ibadan and an MBA from the University of Lagos.

**OLUWABUSOLA
ABIODUN OGUNADE**
Head, Corporate Support Services

Abiodun Ogunade is a dynamic and detail-oriented Corporate Support Officer with a comprehensive background in providing essential administrative and operational support to enhance organizational efficiency.

She is skilled at multi-tasking, problem-solving, and collaborating across departments to ensure seamless business operations.

She is also a dedicated and result-oriented Human Resources expert with over 5 years' experience in fostering a positive workplace culture and driving organizational success through strategic HR Initiatives.

She is known for a collaborative and approachable leadership style that encourages open communication. Adept at building strong relationships with both management and staff.

She holds a B.Sc. in Entrepreneur and Business Management and a Diploma in Mass Communications from the University of Jos, Plateau State. She is committed to continuous professional development.

ALABI KAOSARA DAMOLA
Head, Finance and Account Dept.

Damola is the Head of the Finance & Accounts Department at our organization, bringing over 8 years of extensive experience in accounting and financial management. She holds a Master's Degree in Finance with a specialization in Investment, along with multiple professional training certifications, combining expertise in finance, taxation, and business administration.

Known for her precision, attention to detail, and strategic approach, Damola plays a critical role in maintaining the financial health and stability of the company. She excels in developing financial strategies that align with long-term business goals while ensuring strict compliance with regulatory standards.

Her exceptional communication and interpersonal skills enable her to build strong relationships with internal teams, auditors, financial institutions, and regulatory bodies, fostering transparency and accountability throughout the organization.

Our Services

Turnkey Engineering, Procurement & Construction

ADVAD is well-equipped to provide a combination of Engineering, Procurement & Construction (EPC) solutions.

Our expertise lies in the ability to design projects, source all necessary equipment and materials, oversee construction, and ultimately deliver fully operational facilities to our esteemed clients.

Engineering

Our skilled engineering team consists professionals with extensive experience and expertise in their respective fields, excels at producing meticulous design drawings that conform to both domestic and global standards.

Procurement

Our skilled engineering team consists professionals with extensive experience and expertise in their respective fields, excels at producing meticulous design drawings that conform to both domestic and global standards.

Construction

Our construction team has the requisite skills and resources to handle power projects from start to finish.

Our main goal is to ensure that all aspects of the construction are completed to meet international standards in a timely and cost-effective manner.

We are also dedicated to meeting our clients' specifications and creating a valuable asset.

Power Project Management Consultancy Service and Technical Advisory

We offer top-notch consulting services to potential investors in the power sector who are interested in establishing their own power plants. Our consultancy aims to support various types of power projects.

Our project management consulting services are designed to be efficient and incorporate proven cost-saving strategies. Our team of highly skilled professionals, with an incredible combined experience of over 250 years in power project management, provides the technical expertise for our services.

Power Plant Operation & Maintenance

We offer operation and maintenance (O & M) services in collaboration with the original equipment manufacturer (OEM).

Our aim is to ensure that customers' plants continue to operate reliably for a long time and achieve uninterrupted power generation and supply. We have designed maintenance programmes that focus on timely preventive action and adherence to schedules.

Power plants are as efficient as the operational and maintenance strategy. It serves as a key factor in fulfilling the power plant's expected revenue and guaranteeing long-term sustainability and return on investment.

Power Project Feasibility Studies

We conduct feasibility studies and provide technical advice for power projects to assess these projects and create a practical framework for their execution and cost estimation.

This will enable decision-makers to ascertain the technical and commercial viability of the project by obtaining essential information. Activities included in the feasibility studies and technical advisory are:

- Collecting relevant data
- Assessing the energy consumption patterns through an audit of potential off-takers
- Determining the optimal plant layout
- Identifying a suitable site in close proximity to the fuel source
- Evaluating and selecting technology based on original equipment manufacturer (OEM) evaluations
- Designing an efficient method for power evacuation and selecting the most cost-effective route

- Ranking and selecting the proposed site
- Determining the appropriate size and configuration for the plant
- Assessing the suitability and ranking of OEMs
- Analysing project economics, estimating costs, and calculating tariffs
- Conducting topographical studies and investigating geotechnical and geophysical matters
- Identifying potential risks in project development and implementing risk mitigation strategies.

Our Services

Excellence at it's peak

Power Quality and Energy Audit

Our cutting-edge devices, namely the Fluke 435 and PEL 103 data logger, enable us to conduct a comprehensive analysis of the power quality at the customer's premises.

These tools are also effective in determining the energy consumption patterns and load requirements for both low and high voltage levels.

By assessing the power quality, we ensure the provision of uncontaminated electricity, while the load evaluation aids in reducing inefficiencies and unnecessary usage within the power system.

Our process involves conducting tests on the customer's facility, analyzing the obtained data, and presenting a concise report along with actionable recommendations.

Rural Electrification Projects

Our involvement in implementing rural electrification initiatives encompasses a wide range of activities such as installing both high and low-voltage lines, underground distribution network cables, creating and building sub-stations, setting up street lights, constructing off-grid renewable power plants, and many more.

Our Services

Electrical Metering, Protection & Control Systems

We provide bespoke solutions for Electrical metering and control systems by implementing smart meters and efficient control systems.

Our approach involves understanding our client's needs to develop solutions that meet their specific requirements while also adhering to industry standards.

Power Evacuation/ Grid Stability Studies.

We possess a significant number of skilled individuals who have conducted several grid stability studies for prominent power projects and NIPP (Nigerian Independent Power Projects).

Renewable Energy Projects.

The Renewable Energy space is a fast-developing area of energy provision worldwide. ADVAD provides services at Commercial & Industrial (C&I) level towards a sustainable and smart alternative to rising energy needs.

We have Designed, Project Managed and Implemented projects ranging from 50KW to 10MW within this space. These projects features the most environmentally friendly & energy efficient solutions including hybrid systems (PV, Battery Storage & Diesel Backup) and Grid-tied Systems.

Our Services

Load Bank Rental

Ensure the reliability and optimal performance of your power systems with our comprehensive Load Bank Rental and Operational Services.

Whether for routine testing, commissioning, or preventive maintenance, our high-quality load banks simulate real electrical loads to verify the capacity, efficiency, and stability of generators, UPS systems, turbines, and other critical power infrastructure.

Civil Construction Services

Our Civil Construction Services deliver high-quality, durable, and cost-effective infrastructure solutions tailored to meet your project needs.

From site preparation, Infrastructures development, roads, industrial facilities and urban developments, we combine engineering expertise, modern technology, and strict quality control to ensure long-lasting and sustainable structures.

Statement of Capabilities

141MW Aba Integrated Power Project (Completion to Commissioning)

Project Category:
Generation
(Thermal Projects)

Client:
AMCON

Our Role:
Project Management
& Technical Consultancy

Location:
Abia State

Blueline Power Project's 8MW Dynamic Rotary UPS System, 26KM Distribution Network & Traction Distribution Substations.

Project Category:
Design, Project Implementation
& Monitoring (Generation).

POWER PROJECT FEASIBILITY STUDIES

S/N	PROJECT NAME	CLIENT	STATUS	YEAR
1	Lekki IPP Market Enumeration Exercise	Elektrron/Shell	On-going	
2.	Feasibility Study Power Plant Development(Franchising/Embedded Generation/Customer Enumeration of AEDC Network, Abuja.	Axxela	Completed	2025
3	Feasibility Study for Power Plant Development (Franchising/Embedded Generation/Customer Enumeration of AEDC Network, Minna Niger State)	TetraCore Energy Group	Completed	2025
4	ALP-IBEDC Oyo State Distribution Network Study and Distribution Network Clusterization.	Afircan Law Practice	Completed	2025
5	Feasibility Study for Power Plant Development (Franchising/Embedded Generation /Customer Enumeration of EKEDC Network, Ajah and its Environs, Lagos State.	TetraCore Energy Group	Completed	2024
6	Feasibility Studies /Conceptual Design for the 8MW Blueline IPP & Traction Distribution System.	LampTurnkey/Viathan Engineering Limited	Completed	2022
7	Technical Feasibility Studies for the 2.5MW Ocean Bay IPP Project	NOVA Utilities	Completed	2021
8	Feasibility Studies for 4.5MW Alagbaka Independent Power Project , Akure, Ondo State	Alagbaka Power Limited	Completed	2018
9	Technical Feasibility Studies for 5MW Lishabi Independent Power Project, Abeokuta, Ogun State	Viathan Engineering Limited	Completed	2016
10	Feasibility Studies for 6.5MW PIPP LVI Genco. Power Project.	Viathan Engineering Limited	Completed	2012

Track Record

PROJECT MANAGEMENT AND TECHNICAL CONSULTANCY SERVICES (THERMAL PROJECTS)

S/N	PROJECT NAME	CLIENT	STATUS	YEAR
1	Independent Verification Assignment - Oyo State Electricity Market Development and Implementation Roadmap.	SOFAM/Oyo State	Completed	2025
2.	Project Management and Technical Consultancy Services for the 141MW Aba Integrated Power Project, Aba. Abia State.	AMCON	On-going	
3	Project Management and Project Implementation Supervision of the First Phase of the 8MW Blue Line Independent Power Project, Lagos.	Lamp Turnkey/Viathan Engineering Limited	Completed	2024
4	Project Management for the 20M Viathan Plant Optimization Project.	Viathan Engineering Limited	Completed	2020
5	Verification of Power Generation for Private Public Partnership PPP Independent Power Project (IPPs) across Lagos State.	Viathan/Lagos State	Completed	2021
6	Technical Consultant for the Commissioning of Gas Compression Station, Lishabi, Abeokuta.	GASCO MARINE	Completed	2019
7	Technical Consultant and Project Management Consultant for the 4MW Iliupeju Independent Power Project, Iliupeju, Lagos State.	Viathan Engineering Limited	Completed	2016
8	Technical Consultant and Project Management for the 8.5MW PIPP LVI GENCO Power Project.	PIPP LVI GENCO	Completed	2014

PROJECT MANAGEMENT AND TECHNICAL CONSULTANCY SERVICES (RENEWABLE PROJECTS)

S/N	PROJECT NAME	CLIENT	STATUS	YEAR
1	Supply And Installation of Integrated Solar Power Systems for Twenty-three (23) W.H.O Nigeria States Offices	WHO	Completed	2026
2	Project Owner's Engineer for Construction of Solar Hybrid Power Plants for Seven (7) Federal Universities and One (1) Teaching Hospital under the Federal Government's Energizing Education Program initiative (EEP II funded by the World Bank).	REA/NEP	On-going	

Track Record

3	Installation and Retrofitting of Conventional Solar Streetlight for Tetracore CNG Facility in Ogun State	Tetracore	Completed	2025
4	Supply and Installation of 30kW Hybrid Power System with Solar Streetlights – Peace Hub, Illela, Sokoto	UNDP	Completed	2025
5	Verification Service for Mini-Grid Installation in Ondo State	Ondo State Power Company	Completed	2024
6	Project Owner's Engineer for COVID-19 Intervention Program for the Construction and Installation of 50KW Solar Hybrid Power Plant for 100 Health Care Facilities across the Six Geo-Political Zones of Nigeria under the Energizing Health Initiative Program.	Rural Electrification Agency	Completed	2024
7	Supply, Installation and Commissioning of Solar Inverter Systems with Solar Panels for Nigerian Police Force Facility Buildings at Various Division and Nigeria Institute of Police Study (NIPS) JABI, and other 16 locations with total Combined Installed capacity of 60KW.	UNDP	Completed	2024
8	Project Management and supervision Consultant of the 10MW Kano Solar Power Project (Generation).	Nigeria Sovereign Investment Authority (NSIA)	Completed	2023
9	Owner's Engineer for Construction of Seven (7) Solar Hybrid Power Plants and Two (2) Thermal Power Plant for Nine (9) Federal Universities and One (1) Teaching Hospital in the Phase I of Federal Government's Energizing Education Initiative.	Rural Electrification Agency	Completed	2020
10	Project Management and Consultant for 10MW Kano Solar Power Project (Pre-Construction / Conceptual Phase).	Nigeria Sovereign Investment Authority (NSIA)	Completed	2019
	Embedded Consultant for Energizing Education Project on Powering all the Federal University & Teching Hospitals in Nigeria for Project Conception till Contract Award and Project Management and Supervision of the EEP Phase I.	Nigeria Infrastructure Advisory Facility	Completed	

DISTRIBUTION NETWORK EXPERIENCE

S/N	PROJECT NAME	CLIENT	STATUS	YEAR
1	Project Owner's Engineer for the Distribution Component of the Overhead and Underground Network for the Seven (7) Solar Hybrid Power Plants for Seven (7) Federal Universities and One (1) Teaching Hospital under the Federal Government's Energizing Education Initiative (World Bank Funded)	Rural Electrification Agency	On-going	
2	Project Management and Consultant for the 26KM AC/DC Distribution Network for the 8MW Blueline Independent Power Project	Lamp Turnkey/Viathan Engineering Limited	Completed	2024
3	Project Management and Consultant for 10MW Kano Solar Power Project's 13KM of 33KV Distribution Network	Nigeria Sovereign Investment Authority (NSIA)	Completed	2023
4	Procurement, Civil Construction, Installation & Commissioning of 11KV/0.415V 1.5 MVA Transformer and 2KM (11KV) Over-Head Distribution Network at the Dangote Refinery.	Dangote Nigeria	Completed	2021
5	Project Owner's Engineer for the Distribution Component (Overhead and Underground Lines) for Seven (7) Federal Universities under the Energizing Education Program (EEP 1) Initiative.	Rural Electrification Agency	Completed	2020
6	Project Management and Supervision of the Lishabi Independent Plant's 10KM (11KV) Distribution Network	Viathan Engineering Limited	Completed	2017
7	Project Management Consultant for the Installation of 22KM Underground Distribution Network for PIPP LVI GENCO. Power Project	PIPP LVI GENCO. Power Limited	Completed	2015

SUBSTATION TESTING & COMMISSIONING (DISTRIBUTION & TRANSMISSION NETWORKS)

S/N	PROJECT NAME	CLIENT	STATUS	YEAR
1	Oil Leakage Repairs on the 3MVA Power Distribution Transformer for the Nigeria Breweries, Enugu State.	SOVENTIX	Completed	2025
2	Ibom Power, Investigation and Rectification of Undesirable Tripping of the Bus Zone Protection including the Commissioning of Reserve 132kV Busbar 2 (Ibom Power)	Dunmak Power Limited	Completed	2016
3	Precommissioning Test & Commissioning of the Protection System of GE Frame 6 GTG Unit 2 including the 60MVA 10.5/132kV GSUT and the 132kV GT2 Bay 4in the Switchyard (Ibom Power)	Dunmak Power Limited	Completed	2016
4	Project Management and Supervision of the Installation, Testing & Commissioning of 22KM 11KV Distribution Network Cables, Sub Station Transformers, RMUs, Switchgears Feeder Pillars for the PIPP LVI GENCO 8.5MW IPP	PIPP LVI GENCO. Power Limited	Completed	2015

Track Record

EPC EXPERIENCE (DETAILED ENGINEERING DESIGN, PROCUREMENT AND CONSTRUCTION)

S/N	PROJECT NAME	CLIENT	STATUS	YEAR
1	Renovation of Female Hostel Blocks A And B at Police Training School, Calabar	UNDP	Completed	2025
2.	Revitalization of Eight (8) PHCs	UNICEF	On-going	
3	Installation and Retrofitting of Conventional Solar Streetlight for Tetracore CNG Facility in Ogun State	TETRACORE ENERGY GROUP	Completed	2025
4	National Population Commission (NPC) Abuja Data Centre Electrical Installation work	COINMAC/Nigeria Population Commission	Completed	2025

5	Power Cable Inspection Manhole Construction, Cable Tray Installations, Testing and Commissioning of Power Cables, MW Panel, Power Distribution Transformer, RMU and all other associated MV installations for the 2.5MW Solar Power Plant for Nigeria Brewery, Ibadan	SOVENTIX	Completed	2024
6	Reconstruction/Rehabilitation of Building Facilities for Police Staff College, Jos, Plateau State	United Nations Development Program (UNDP)	Completed	2024
7	Procurement, Electrical Installations & Commissioning of Disaster Data Centre , Kaduna.	HAVILLAH GROUP	Completed	2023
8	Detailed Engineering Design (Architectural and Civil Structures) for the 5.5MW Rack Centre Independent Power Plant	ALAUSA POWER LIMITED	Completed	2023
9	Detailed Engineering Design of 8MW DRUP System and Traction Distribution Network for Blueline Independent Power Project	LampTurnkey/Viathan Engineering Limited	Completed	2022
10	Detailed Engineering Design , Mechanical and Electrical Installation of the 2.5MW Ocean Bay IPP Project	NOVA Utilities	Completed	2021
11	Civil, Mechanical & Electrical Installation of 5MW IPP for Sapiro Utilities IPP	SAPIO Utilities	Completed	2018
12	Detailed Engineering Design of 8MW Blueline Independent Power Project	Blueline Power Limited	Completed	2017
13	Detailed Engineering Design, Mechanical and Electrical Installation of 5MW Meadow Hall IPP	Sapiro Utilities	Completed	2017
14	Detailed Engineering Design of 5MW Lishabi Independent Power Project	Viathan Engineering Limited	Completed	2016
15	Detailed Engineering Design of 4MW Ilupeju Independent Power Project	Viathan Engineering Limited	Completed	2016
16	Detailed Engineering Design of 6.5MW PIPP LVI GENCO. Power Project	PIPP LVI GENCO. Power Limited	Completed	2015

TECHNICAL DUE DILIGENCE EXPERIENCE

S/N	PROJECT NAME	CLIENT	STATUS	YEAR
1	Embedded Technical Advisory Services on Renewable Power Projects.	InfraCredit	Completed	2022
2	Pre-Acquisition Bid Technical Due Diligence for the 450MW Ihovbor Power Plant owned by Niger Delta Power Holding Company	ADEZGO Limited	Completed	2022
3	Technical Due Diligence on Power Facilities in Waltersmith Petroman Oil	Waltersmith Petroman Oil /ADEZGO Ltd.	Completed	2021
4	Pre-Acquisition Technical Due Diligence of 12MW Akute Power Limited	Viathan Engineering Limited	Completed	2016
5	Technical Due Diligence on 33MW Nigeria Electricity Supply Company (NESCO), Bukuru Jos, Plateau State	Viathan Engineering Limited	Completed	2016
6	Pre-Acquisition Technical Due Diligence of 10MW Island Power Plant, Marina, Lagos.	Viathan Engineering Limited	Completed	2016

POWER PLANT OPERATION AND MAINTENANCE EXPERIENCE

S/N	PROJECT NAME	CLIENT	STATUS	YEAR
1	Technical Support for the 8MW Blueline Independent Power Project Operation & Maintenance Services.	Lamp Turnkey/Viathan Engineering Limited	Ongoing	
2	Operation and Maintenance of 1.4MW MasterStroke IPP	MasterStroke	Completed	2024
3	Operation and Maintenance of Electrical Infrastructure of Jacob Mews Estate, Yaba, Lagos	Jacob Mews	Completed	2019
4	Operation and Maintenance of 6.5MW PIPP LVI GENCO. Power Plant, Lekki, Lagos	PIPP LVI GENCO. Power Limited	Completed	2015

PLANT CAPACITY TEST, ENERGY / POWER AUDIT & ELECTRICAL POWER SYSTEM STUDY

S/N	PROJECT NAME	CLIENT	STATUS	YEAR
1	Energy Audit at MFM Facility Magboro	DEL Energy	Completed	2025
2	Capacity Test for IBOM Power Plant, Ihovbor NIPP Power Plant, Gbarain NIPP Power Plant and Omoku Power Plant	NBET	Completed	2025
3	Power System Modelling and Simulation for UCPF QUO Central Processing Facility's Generation, Distribution and Connected Load	ACUGAS/MOTOLAT Limited	Completed	2025
4	HV Energy Audit at BUA facility in Porthacourt and Lagos	AIG Integrated Services Limited	Completed	2025
5	Technical Assessment, Load and Energy Demand for Gateway International Airport Ogun State	African Law Practice	Completed	2025
6	Capacity Test for IBOM Power Plant, Akwa Ibom State and Ihovbor NIPP Power Plant, Edo State.	NBET	Completed	2024
7	Technical study on Roadmap to Optimal Energy Efficiency for Bank of Industry Building (BOI)	African Law Practice	Completed	2024
8	Energy and Load Audit for Various Private Investors in Power Project	Various Clients	Ongoing	
9	UCPF Power Generation Infrastructure/ Load Demand Assessment Study	ACUGAS/ MOTOLAT Limited	Completed	2022
10	Technical Assessment & Power System Audit of 17 Load Centres across Lagos Island	Viathan Engineering	Completed	2022
11	Key Customer Group / Commercial Loss Audit of Maximum Demand Customer of Eko Electricity Distribution Company	Eko Electricity Distribution Company (EKEDC)	Completed	2019
12	Load Demand and Energy Audit Survey on NEPA close Injection Substation	African Energy Solution Limited	Completed	2018
13	Grid & Evacuation Study for the Proposed 150MW Delta Sunrise IPP,	Proton Energy Limited	Completed	2017

Track Record

	Delta State			
14	Power and Electrical System Audit of Lagos Airport (International Airport, MMA 2 and Domestic Terminal Airport)	Federal Ministry of Power, Works and Housing	Completed	2017
15	Power and Electrical System Audit of Nigerian Port Authority (Apapa and Tin can Island Ports)	Federal Ministry of Transport	Completed	2016
16	Energy Audit of Oyo State Government Secretariat, Agodi, Ibadan	Oyo State Government	Completed	2016
17	Energy Audit of Key Buildings in Marina (UBA HQ, Ecobank HQ, Freeman House (Shell HQ Building), Bank of Industry Building, Freedom Park, etc.	Marine Power Limited	Completed	2013
18	Energy and Load Audit of City Hall Marina, Lagos	First Power Limited	Completed	2013
19	Power Audit of Nigeria Bottling Company Electrical Infrastructure, Agidingbi	Nigeria Bottling Company	Completed	2013
