

OH&S Policy

ADVAD Limited is committed to providing, supporting and sustaining a safe, healthy and environmentally friendly space for its workers at all time and in all our work locations.

We shall ensure hazards are not only identified but adequately controlled using the hierarchy of Control system and provide resources for awareness creation, dissemination of safety information, training and promote Accident Prevention Program (APP) across all our operations.

In fulfilling this commitment, we shall comply with all regulatory Health, Safety, Environmental, and applicable legal requirements, ensuring our operations meet statutory obligations, with a commitment of input and participation of our workers.

Safety will be a major consideration in activities and not an afterthought and any attempt by any members of staff to circumvent or compromise safety by any means shall not be condoned or tolerated.

Furthermore, we will proactively engage and monitor our workforce to act in safe manner and empower them to report and stop unsafe activities while providing visible leadership in driving a positive safety culture within our organization and frequently review our processes towards sustaining a continual improvement of the overall safety management system.
