

QUALITY POLICY

ADVAD Limited is committed to delivering high-quality Engineering, Procurement, Construction, Installation, Commissioning, and Operation & Maintenance services for the energy industry and power sector. In line with our strategic direction, we aim to provide sustainable, reliable, and Innovative solutions that consistently meet and exceed client expectations.

To achieve this, we commit to:

- Complying with all applicable statutory, regulatory and contractual requirements.
- Implementing, maintaining, and continually improving the effectiveness of our Quality Management System in line with ISO 9001:2015.
- Establishing, monitoring, and reviewing Quality objectives that align with this policy and our strategic goals.
- Carrying out all activities systematically in accordance with established processes, procedures, and engineering practices.
- Engaging, training, and empowering our employees to deliver quality and add value to clients and stakeholders.

This policy is communicated, understood, and applied across all levels of the organization, and is made available to relevant parties. It is reviewed periodically to ensure its continuing suitability to our purpose, context, and strategy direction.
